LARP GALLERY · TYPE B INSTALL EDITION

CERTIFICATE OF OWNERSHIP

Physical artwork bound to on-chain token

ARTIST Maia

TITLE Untitled

YEAR 2026

EDITION 1 of 1 (Type B)

MINT DATE 5 May 2026

The holder of the Ethereum mainnet token associated with this certificate is recognised as the **sole owner of the physical artwork** described above, installed by LARP Gallery as part of a public street-art group show. Ownership of the physical work transfers automatically with on-chain transfer of the token.

This certificate is pinned to IPFS and its SHA-256 cryptographic hash is recorded immutably on the Ethereum mainnet at the time of mint, binding this document to the token forever. To verify authenticity, compute the SHA-256 of this PDF and compare against the `legalDocHash` stored on the LARP Gallery NFT contract for this token.

The physical artwork lives outside, in public, on a wall. It will weather, may be painted over, may be added to. The holder accepts the work in its evolving state for as long as it survives in situ. Photographic documentation of the wall over time is minted daily as Type A tokens by an autonomous camera and is publicly viewable at souls.forsale/larp.

ARTIST SIGNATURE — MAIA
